Estimate Classes

<u>Estimate Class</u>	<u>Description</u>
Class 1 Leak	Staining/Light seepage of fluids except brake fluid or fuel. Does not require immediate attention.
Class 2 Leak	Wet leakage of fluids except brake fluid or fuel. May require more frequent fluid level inspection.
Class 3 Leak	Significant leakage of fluids except brake fluid or fuel. Recommend repairs at this time.
Class 4 Leak	Major leakage requiring repairs at this time. Also includes any brake fluid or fuel leaks. Vehicle must not leave under its own power.
Class 1 Repair	Non-safety related repair. Minor driveability issues that don't significantly affect fuel mileage or function of vehicle.
Class 2 Repair	Non-safety related repair. Minor driveability issues that may reduce fuel economy or function of vehicle, or cause additional minor damage if left unrepaired.
Class 3 Repair	Non-safety related repair. Driveability issues that may significantly affect fuel mileage or function of vehicle, or cause significant damage or safety issues if left unrepaired. Recommend repairs at this time.
Class 4 Repair	Safety related repair or breakdown. Vehicle will not or is unsafe to leave under its own power.
Class 1 Brakes	Brake pads not worn. Price information for future reference only. Does not require immediate attention.
Class 2 Brakes	Brake pads approaching end of life. May require more frequent brake inspection.
Class 3 Brakes	Brake pads worn. Recommend immediate replacement or scheduling for replacement as soon as possible.
Class 4 Brakes	Brakes worn beyond safe limits or malfunctioning. Vehicle is not safe to leave under its own power.
Class Unknown	No description available. Call for details.
Class PF	The major component referred to shows strong signs that it will fail in the near future. Recommend budgeting for repairs or evaluating vehicle for possible sale.
